

ASL NAVIGATOR 2 YEAR FREE MAP UPGRADE INSTRUCTIONS

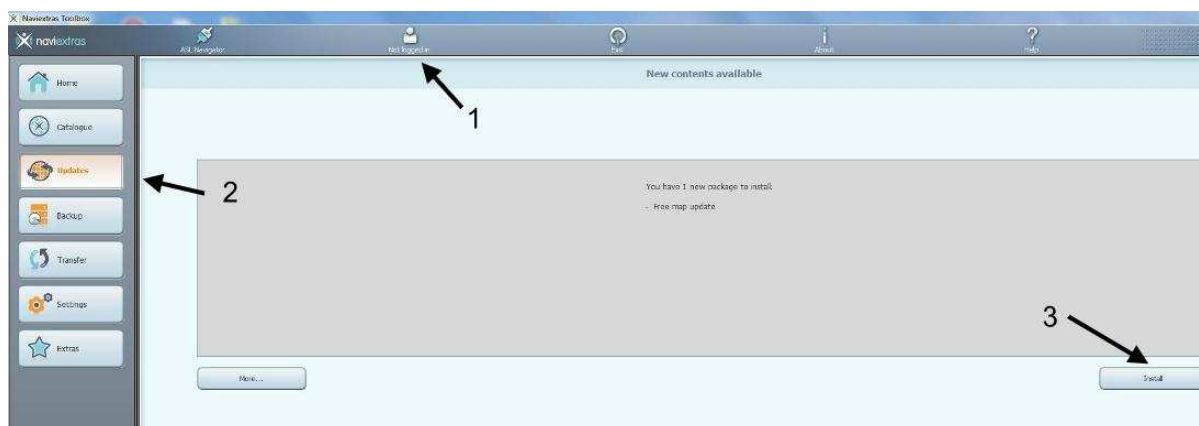

Items Required:

- Computer with Windows XP(Service Pack 2) / Vista 32 Bit Versions / Windows 7(32 Bit) installed.
- SD Card Reader
- SD Card from ASL Navigation Module

1. Firstly remove SD card from Navigation Module. (If unsure of Navigation location please contact fitter/dealer.)
2. Open website www.naviextras.com
3. From top menu open 'MAPS & MORE' page and from drop-down box choose '**ASL Automedia**' and '**ASL Navigator**' and click 'Register' and enter details.

4. Now open 'DOWNLOAD' page and download 'Naviextras Toolbox' application and install.
5. Open Toolbox application and insert SD card which will be automatically recognised by the Toolbox program as 'ASL Navigator'.
6. Click the 'LOGIN' icon and enter the Username and Password which you registered earlier.
7. If an update is available the 'Update' Icon in the Left menu will Highlight and selecting this will show you what content is available

8. By clicking 'Install' it will first ask you if you would like to proceed with a Map Backup which ideally should be Created before installing the new Map update.
9. Once Backup has completed the Map Update will start and once finished the SD card can be reinstalled in the Navigation Module with the Latest Map release.
